Software developer with an understanding of HTML/CSS, JavaScript and Nodejs demonstrated through hands on experience building projects. I am interested in back-end roles, internship opportunities and also open to learning new technologies. I am also currently learning data analysis with python. I possess good communication skills and an engaged collaborator from my experience at TIIDELAB .

## WORK EXPERIENCE

### FELLOW(Back-end) TIIDELab

08/2020 - 01/2021 *Abuja, Nigeria.*

6 months immersive Software Development fellowship

#### Achievements/Tasks

- Built a portfolio website using HTML, CSS & JavaScript
- collaborated with back-end engineers to build, document and host APIs using Nodejs and Express framework, postman and Heroku for frontend consumption in a group project- A project Management Tool
- Garnered soft skills such as problem-solving, critical thinking, collaboration by working in teams and participating in weekly hackathons and simulations. Also oral and written communication skills through presentations and writing monthly articles about my experience.
